Bangladesh Red Crescent Society
National Headquarters
684-686, Red Crescent Sarak, Bara Moghbazar, Dhaka-1217

VACANCY ANNOUNCEMENT

Red Cross - Red Crescent movement is the largest volunteer organization in the world. Bangladesh Red Crescent Society (BDRCS) is a national society of the movement, constituted on 31 March 1973 by the President's Order No. 26 of 1973 with retrospective effect from 16 December 1971. This is the biggest humanitarian organization in Bangladesh. As an auxiliary to the government, the Society provides humanitarian assistance to the vulnerable people over the last 48 years and has undertaken a wide range of activities in humanitarian response, disaster management, health, capacity building and in promoting Red Cross/ Red Crescent ideals and principles.

BDRCS is initiating an integrated Isolation and Treatment Center in Ukhia, Cox’s Bazar near camp 7 (Rubber Garden) and in camp 2E. The IITC will be equipped to isolate suspected and confirmed COVID-19 cases from the guest population and offer symptomatic treatment for mild to moderate COVID-19 cases. Severe and critical cases will be referred to higher facilities for the time being. As the pandemic evolves the IITC may be upscaled to include severe case management. BDRCS is calling for applications for around 200 different medical and non-medical positions to be based in the IITC, in Ukhia Upazila under Cox’s Bazar District willing to serve Forcibly Displaced Myanmar Nationals (FDMN) on a large health facility (IITC).

Currently Bangladesh Red Crescent Society is looking for a suitable Bangladeshi national for the following position under Population Movement Operation (PMO), Cox’s Bazar:

Key Responsibilities:

- Overall in charge of COVID 19 related health response of PMO.
- Coordinates all COVID-19 health related responses of PMO among internal and external stakeholders such as government and non-government agencies including humanitarian actors to ensure harmonization of responses and ensure that health related accomplishments are shared.
- Leads in the conduct of health needs assessments, resource mobilizations, planning and provides recommendation to the PMO management of any revisions and/or updating that will be required to the current emergency plan of action including budgets.
- Responsible for identifying additional needs and resources and elaborating program plans and proposals for the health emergency response in line with the identified gaps in the overall health response for COVID 19 in Cox’s Bazar especially for the displaced People from Rakhine (PFR).
- Develops and manage programs and support function staff and ensure that all relevant RCRC policies and procedures are in place, implemented and adhered to.
- Directly reports to BDRCS-IFRC Management in close coordination with BDRC Health and PSS Manager and IFRC Health Coordinator.

BDRCS offers...
- A highly competitive salary package, including benefits, health insurance and risk allowance.
• Full board, including accommodation, snacks and 3 meals per day on the health facility compound (IITC).
• Contracts up to December 2020 with the possibility of extension, depending on the development of the health pandemic and availability of funds.
• Off- and on-the job trainings for working in an emergency health facility (IITC).
• An enriching experience with the potential to grow professionally.

Candidates must agree with:
• Serving 8 hours per day with one day off per week.
• Serving on the health facility compound (IITC) for 10 weeks followed by 2 weeks of quarantine on the compound (IITC).
• The total duty of 12 weeks in a row (work + quarantine) will be followed by two weeks of paid leave.
• During duty, staff will not be able to leave the IITC compound, and only able to interact with externals if the duty necessitates and if approved by the line manager.

Professional Requirements:
• MBBS with MPH with experience in health emergency management
• Senior professional with successful track record in handling health emergencies
• 2-5 years’ experience in hospital emergencies
• Ability to work harmoniously within a team and under stress

Professional Roles:
• Complete all examination and screening of all patients including suspected Covid-19 patients at Triage
• Immediately link all mild cases with outreach team
• Admit and treat moderate to severe cases as per protocol
• Complete all clinical management strictly following IPC guidelines & procedures
• Refer severe cases to referral hospital
• Maintain pleasant work relation with nurses, aid nurses, support staff

Perform any other work-related duties and responsibilities that may be assigned by the line manager.

If you think you are competent enough for the position, please submit your application with complete resume through BDJobs online system on or before 5:00 pm, 27 April, 2020.
