Vacancy Announcement

Red Cross - Red Crescent movement is the largest volunteer organization in the world. Bangladesh Red Crescent Society (BDRCS) is a national society of the movement, constituted on 31 March 1973 by the President's Order No. 26 of 1973 with retrospective effect from 16 December 1971. This is the biggest humanitarian organization in Bangladesh. As an auxiliary to the government, the Society provides humanitarian assistance to the vulnerable people over the last 48 years and has undertaken a wide range of activities in humanitarian response, disaster management, health, capacity building and in promoting Red Cross/ Red Crescent ideals and principles.

BDRCS is initiating an integrated Isolation and Treatment Center in Ukhia, Cox’s Bazar near camp 7 (Rubber Garden) and in camp 2E. The IITC will be equipped to isolate suspected and confirmed COVID-19 cases from the guest population and offer symptomatic treatment for mild to moderate COVID-19 cases. Severe and critical cases will be referred to higher facilities for the time being. As the pandemic evolves the IITC may be upscaled to include severe case management. BDRCS is calling for applications for around 200 different medical and non-medical positions to be based in the IITC, in Ukhia Upazila under Cox’s Bazar District willing to serve Force Displaced Myanmar Nationals (FDMN) on a large health facility (IITC).

Currently Bangladesh Red Crescent Society is looking for a suitable Bangladeshi national for the following position under Population Movement Operation (PMO), Cox’s Bazar:

- **Job title**: Respiratory Medicine Specialist
- **Duration of contract**: Until 31.12.2020 (With possibility of extension)
- **Organizational Unit/Department**: Health
- **Service status**: BDRCS project-based contract
- **Salary Range**: As per the BDRCS policy
- **Number of Post**: 2
- **Reporting line**: Chief Medical Officer, BDRCS
- **Age Limit**: 45 years (may be relaxed in case of outstanding candidates)
- **Duty station**: Ukhia, Cox’s Bazar (Full-time presence at Health facility)

**Key Responsibilities**:

- S/he will provide care to patients with chronic diseases, such as asthma and emphysema, or offer emergency care to heart attack, stroke, drowning or shock victims.
- In addition, s/he can also care for patients on ventilator support in intensive-care units of other hospitals.
- S/he will provide direct care for respiratory patients and monitor diagnostic procedures to evaluate a patient’s lung capacity.
- S/he might also perform oxygen therapy, ventilator support, blood gas analysis, electrocardiograph monitoring and cardiopulmonary resuscitation.
- Respiratory physicians also run lung function laboratories in hospitals, enabling the interpretation of complex lung function testing.

**BDRCS offers**:

- A highly competitive salary package, including benefits, health insurance and risk allowance.
- Full board, including accommodation, snacks and 3 meals per day on the health facility compound (IITC).
- Contracts up to December 2020 with the possibility of extension, depending on the development of the health pandemic and availability of funds.
